(ages 9 thru 12)

Vancouver College Alumni Gym

5400 Cartier Street, Vancouver

(access to the school parking lot from Hudson Street
2 blocks east of Granville Street at 39th Avenue)

The game will never change, but the way we teach our children has changed considerably in the past few years. The majority of children only want to play and may not be concerned if they become great or even good. As every child is unique and will have strengths and weaknesses, we must do everything we can to help each one reach attainable goals with the skills of baseball/softball. They must always be in a safe environment, have fun through activities and be taught to improve their performance. Through your help, build the confidence in each individual child to succeed in this wonderful game!

For six years, Al was the National Coach and the author of LL Canada's training program. Come out and experience his new instructional program. As this will be an event to enjoy, wear comfortable clothing, bring a glove, a lot of enthusiasm and he will bring the program to life for you! Parents are always welcome along with the coaches and managers. A manual for each session will be available for \$5.

Each league can send as many coaches as long as your league has signed up. To assist with registration at the clinic, please email Corinne (see below) with the name and league affiliation of each coach.

Thank you.

Corinne Chow, District Administrator
